generally prohibits recipients of Federal grants and cooperative agreements from using Federal (appropriated) funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a SPECIFIC grant or cooperative agreement. Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non-appropriated) funds. 5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children’s services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children’s services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children’s services and that all subrecipients shall certify accordingly.
The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

Dear Ms. Odessa Crocker,

Pursuant to Title V of the Public Health Act, I hereby certify that the state of Utah will assume responsibility for the implementation of the Community Mental Health and Substance Abuse Prevention and Treatment Block Programs for Fiscal Year 2021.

Utah Department of Human Services’ Division of Substance Abuse and Mental Health has been designated the state agency to carry out the policies and programs of the Block Grant. Accordingly, I delegate to Ann Williamson, Executive Director of the Utah Department of Human Services, the authority to sign the Assurances and Certifications and any documents related to the FY21 Utah Block Grant.

On the recommendation of SAMHSA, the grant application was written as a combined application, and it reflects the work of an interdisciplinary team of colleagues from the Division of Substance Abuse and Mental Health who are supported in their efforts by the State Mental Health Planning and Advisory Council. Their work reflects Utah's commitment to provide a quality, community-based, locally managed and comprehensive community behavioral health system. Utah embraces hope and recovery and our application contains several initiatives that will continue to build and transform our community behavioral health system focusing on person-centered services and outcome based goals. Goals include an increased emphasis on prevention and early intervention, a Zero Suicide initiative, improved care for children and youth, recovery promotion, and health system integration. Utah is dedicated to the concepts of prevention, advocacy, treatment, education, and support.

I commend the Utah Behavioral Health Planning and Advisory Council and the many other citizens of Utah who have volunteered numerous hours to help develop and implement this state plan.

Sincerely,

Gary R. Herbert

5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.
The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.
The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

Dear Ms. Odessa Crocker,

Pursuant to Title V of the Public Health Act, I hereby certify that the state of Utah will assume responsibility for the implementation of the Community Mental Health and Substance Abuse Prevention and Treatment Block Programs for Fiscal Year 2021.

Utah Department of Human Services' Division of Substance Abuse and Mental Health has been designated the state agency to carry out the policies and programs of the Block Grant. Accordingly, I delegate to Ann Williamson, Executive Director of the Utah Department of Human Services, the authority to sign the Assurances and Certifications and any documents related to the FY21 Utah Block Grant.

On the recommendation of SAMHSA, the grant application was written as a combined application, and it reflects the work of an interdisciplinary team of colleagues from the Division of Substance Abuse and Mental Health who are supported in their efforts by the State Mental Health Planning and Advisory Council. Their work reflects Utah's commitment to provide a quality, community-based, locally managed and comprehensive community behavioral health system. Utah embraces hope and recovery and our application contains several initiatives that will continue to build and transform our community behavioral health system focusing on person-centered services and outcome based goals. Goals include an increased emphasis on prevention and early intervention, a Zero Suicide initiative, improved care for children and youth, recovery promotion, and health system integration. Utah is dedicated to the concepts of prevention, advocacy, treatment, education, and support.

I commend the Utah Behavioral Health Planning and Advisory Council and the many other citizens of Utah who have volunteered numerous hours to help develop and implement this state plan.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

In FY 2012, SAMHSA developed and disseminated a policy change applicable to the EIS/HIV which provided any state that was a ?designated state? in any of the three years prior to the year for which a state is applying for SABG funds with the flexibility to obligate and expend SABG funds for EIS/HIV even though the state a state?s AIDS case...

Therefore, any state with an AIDS case rate below 10 or more such cases per 100,000 that meets the criteria described in the 2012 policy guidance would be allowed to obligate and expend SABG funds for EIS/HIV if they chose to do so.

21. State Planning/Advisory Council and Input on the Mental Health/Substance Abuse Block Grant Application- Required for MHBG

Narrative Question

Each state is required to establish and maintain a state Mental Health Planning/Advisory Council to carry out the statutory functions as described in 42 U.S. C. 300x-3 for adults with SMI and children with SED. To meet the needs of states that are integrating services supported by MHBG and SABG, SAMHSA is recommending that states expand their Mental Health Advisory Council to include substance misuse prevention, SUD treatment, and recovery representation, referred to here as an Advisory/Planning Council (PC). SAMHSA encourages states to expand their required Council’s comprehensive approach by designing and implementing regularly scheduled collaborations with an existing substance misuse prevention, SUD treatment, and recovery advisory council to ensure that the council reviews issues and services for persons with, or at risk, for substance misuse and SUDs. To assist with implementing a PC, SAMHSA has created Best Practices for State Behavioral Health Planning Councils: The Road to Planning Council Integration.

Planning Councils are required by statute to review state plans and implementation reports; and submit any recommended modifications to the state. Planning councils monitor, review, and evaluate, not less than once each year, the allocation and adequacy of mental health services within the state. They also serve as an advocate for individuals with M/SUD problems. SAMHSA requests that any recommendations for modifications to the application or comments to the implementation report that were received from the Planning Council be submitted to SAMHSA, regardless of whether the state has accepted the recommendations. The documentation, preferably a letter signed by the Chair of the Planning Council, should state that the Planning Council reviewed the application and implementation report and should be transmitted as attachments by the state.

Planning Councils: The Road to Planning Council Integration

Please consider the following items as a guide when preparing the description of the state’s system:

1. How was the Council involved in the development and review of the state plan and report? Please attach supporting documentation (meeting minutes, letters of support, etc.) using the upload option at the bottom of this page.
   a) What mechanism does the state use to plan and implement substance misuse prevention, SUD treatment and recovery services?
   b) Has the Council successfully integrated substance misuse prevention and treatment or co-occurring disorder issues, concerns, and activities into its work?

2. Is the membership representative of the service area population (e.g. ethnic, cultural, linguistic, rural, suburban, urban, older adults, families of young children)?

3. Please describe the duties and responsibilities of the Council, including how it gathers meaningful input from people in recovery, families, and other important stakeholders, and how it has advocated for individuals with SMI or SED.

Please indicate areas of technical assistance needed related to this section.

Additionally, please complete the Advisory Council Members and Advisory Council Composition by Member Type forms.

There are strict state Council membership guidelines. States must demonstrate: (1) the involvement of people in recovery and their family members; (2) the ratio of parents of children with SED to other Council members is sufficient to provide adequate representation of that constituency in deliberations on the Council; and (3) no less than 50 percent of the members of the Council are individuals who are not state employees or providers of mental health services.

The Substance Abuse Prevention and Treatment Block Grant (SABG) restriction\(^1\),\(^2\) on the use of federal funds for programs distributing sterile needles or syringes (referred to as syringe services programs (SSP)) was modified by the Consolidated Appropriations Act, 2018 (P.L. 115-141) signed by President Trump on March 23, 2018\(^3\).

Section 520. Notwithstanding any other provisions of this Act, no funds appropriated in this Act shall be used to purchase sterile needles or syringes for the hypodermic injection of any illegal drug: Provided, that such limitation does not apply to the use of funds for elements of a program other than making such purchases if the relevant State or local health department, in consultation with the Centers for Disease Control and Prevention, determines that the State or local jurisdiction, as applicable, is experiencing, or is at risk for, a significant increase in hepatitis infections or an HIV outbreak due to injection drug use, and such program is operating in accordance with State and local law.

A state experiencing, or at risk for, a significant increase in hepatitis infections or an HIV outbreak due to injection drug use, (as determined by CDC), may propose to use SABG to fund elements of an SSP other than to purchase sterile needles or syringes. States interested in directing SABG funds to SSPs must provide the information requested below and receive approval from the State Project Officer. Please note that the term used in the SABG statute and regulation, intravenous drug user (IVDU) is being replaced for the purposes of this discussion by the term now used by the federal government, persons who inject drugs (PWID).

States may consider making SABG funds available to either one or more entities to establish elements of a SSP or to establish a relationship with an existing SSP. States should keep in mind the related PWID SABG authorizing legislation and implementing regulation requirements when developing its Plan, specifically, requirements to provide outreach to PWID, SUD treatment and recovery services for PWID, and to routinely collaborate with other healthcare providers, which may include HIV/STD clinics, public health providers, emergency departments, and mental health centers\(^4\). SAMHSA funds cannot be supplanted, in other words, used to fund an existing SSP so that state or other non-federal funds can then be used for another program.

In the first half of calendar year 2016, the federal government released three guidance documents regarding SSPs\(^5\): These documents can be found on the Hiv.gov website: https://www.hiv.gov/federal-response/policies-issues/syringe-services-programs.

Please refer to the guidance documents above and follow the steps below when requesting to direct FY 2021 funds to SSPs.

- **Step 1** - Request a Determination of Need from the CDC

- **Step 2** - Include request in the FFY 2021 Mini-Application to expend FFY 2020 - 2021 funds and support an existing SSP or establish a new SSP
  - Include proposed protocols, timeline for implementation, and overall budget
  - Submit planned expenditures and agency information on Table A listed below

- **Step 3** - Obtain State Project Officer Approval

Future years are subject to authorizing language in appropriations bills.
Section 1923 (b) of Title XIX, Part B, Subpart II of the PHS Act (42 U.S.C. § 300x-23(b)) and 45 CFR § 96.126(e) requires entities that receive SABG funds to provide substance use disorder (SUD) treatment services to PWID to also conduct outreach activities to encourage such persons to undergo SUD treatment. Any state or jurisdiction that plans to re-obligate FY 2020-2021 SABG funds previously made available such entities for the purposes of providing substance use disorder treatment services to PWID and outreach to such persons may submit a request via its plan to SAMHSA for the purpose of incorporating elements of a SSP in one or more such entities insofar as the plan request is applicable to the FY 2020-2021 SABG funds only and is consistent with guidance issued by SAMHSA.

Section 1931(a)(1)(F) of Title XIX, Part B, Subpart II of the Public Health Service (PHS) Act (42 U.S.C.§ 300x-31(a)(1)(F)) and 45 CFR § 96.135(a)(6) explicitly prohibits the use of SABG funds to provide PWID with hypodermic needles or syringes so that such persons may inject illegal drugs unless the Surgeon General of the United States determines that a demonstration needle exchange program would be effective in reducing injection drug use and the risk of HIV transmission to others. On February 23, 2011, the Secretary of the U.S. Department of Health and Human Services published a notice in the Federal Register (76 FR 10038) indicating that the Surgeon General of the United States had made a determination that syringe services programs, when part of a comprehensive HIV prevention strategy, play a critical role in preventing HIV among PWID, facilitate entry into SUD treatment and primary care, and do not increase the illicit use of drugs.

Division H Departments of Labor, Health and Human Services and Education and Related Agendas, Title V General Provisions, Section 520 of the Consolidated Appropriations Act, 2018 (P.L. 115-141)

Section 1924(a) of Title XIX, Part B, Subpart II of the PHS Act (42 U.S.C. § 300x-24(a)) and 45 CFR § 96.127 requires entities that receive SABG funds to routinely make available, directly or through other public or nonprofit private entities, tuberculosis services as described in section 1924(b)(2) of the PHS Act to each person receiving SUD treatment and recovery services.

Section 1924(b) of Title XIX, Part B, Subpart II of the PHS Act (42 U.S.C. § 300x-24(b)) and 45 CFR 96.128 requires “designated states” as defined in Section 1924(b)(2) of the PHS Act to set-aside SABG funds to carry out 1 or more projects to make available early intervention services for HIV as defined in section 1924(b)(7)(B) at the sites at which persons are receiving SUD treatment and recovery services.

Section 1928(a) of Title XXI, Part B, Subpart II of the PHS Act (42 U.S.C. 300x-28(c)) and 45 CFR 96.132(c) requires states to ensure that substance abuse prevention and SUD treatment and recovery services providers coordinate such services with the provision of other services including, but not limited to, health services.

Department of Health and Human Services Implementation Guidance to Support Certain Components of Syringe Services Programs, 2016 describes an SSP as a comprehensive prevention program for PWID that includes the provision of sterile needles, syringes and other drug preparation equipment and disposal services, and some or all the following services:

- Comprehensive HIV risk reduction counseling related to sexual and injection and/or prescription drug misuse;
- HIV, viral hepatitis, sexually transmitted diseases (STD), and tuberculosis (TB) screening;
- Provision of naloxone (Narcan?) to reverse opiate overdoses;
- Referral and linkage to HIV, viral hepatitis, STD, and TB prevention care and treatment services;
- Referral and linkage to hepatitis A virus and hepatitis B virus vaccinations; and
- Referral to SUD treatment and recovery services, primary medical care and mental health services.

Centers for Disease Control and Prevention (CDC) Program Guidance for Implementing Certain Components of Syringe Services Programs, 2016 includes a description of the elements of an SSP that can be supported with federal funds.

- Personnel (e.g., program staff, as well as staff for planning, monitoring, evaluation, and quality assurance);
- Supplies, exclusive of needles/syringes and devices solely used in the preparation of substances for illicit drug injection, e.g., cookers;
- Testing kits for HCV and HIV;
- Syringe disposal services (e.g., contract or other arrangement for disposal of bio- hazardous material);
- Navigation services to ensure linkage to HIV and viral hepatitis prevention, treatment and care services, including antiretroviral therapy for HCV and HIV, pre-exposure prophylaxis, post-exposure prophylaxis, prevention of mother to child transmission and partner services; HAV and HBV vaccination, substance use disorder treatment, recovery support services and medical and mental health services;
• Provision of naloxone to reverse opioid overdoses

• Educational materials, including information about safer injection practices, overdose prevention and reversing an opioid overdose with naloxone, HIV and viral hepatitis prevention, treatment and care services, and mental health and substance use disorder treatment including medication-assisted treatment and recovery support services;

• Condoms to reduce sexual risk of sexual transmission of HIV, viral hepatitis, and other STDs;

• Communication and outreach activities; and

• Planning and non-research evaluation activities.
